The Alaska Miners Association Presents:

STEM

SCIENCE FAIR WORKSHOP
MINERAL & ENERGY RESOURCES RELATED PROJECTS

TUESDAY MARCH 31, 2020 6:30 TO 8:00 PM
CARLSON CENTER, FAIRBANKS AK
SCIENCE TECHNOLOGY ENGINEERING AND MATHEMATICS (STEM) STUDENTS AND PARENTS SCIENCE FAIR WORKSHOP:

TUESDAY, MARCH 31, 2020
FROM 6:30 – 8:00 P.M. CARLSON CENTER

Workshop Coordinators:
Marie Metz (Immaculate Conception School Teacher (Retired); Paul Metz (Professor of Geological Engineering, Department of Mining & Geological Engineering, UAF); and Thomas Bundtzen (Principal, Pacific Rim Geological Consultants)

Workshop Information:
Students are encouraged to bring and display Science Fair Projects for the current school year. Science Fair Projects shall be displayed in the Conference Trade Show area of the Carlson Center.

Projects will be judged and one project from each grade level shall be recognized at the Conference Banquet on April 2, 6:00 p.m. at the Westmark Hotel. The awardees and parents will be our guests at the Banquet.

Workshop Objectives:
- Guiding Students for Science Fair Projects for the 2020-2021 School Year
- Discussing the role of Science Projects in developing student awareness of careers in science, engineering, and technology.
- Meeting with Professional Scientists and Engineers from the Resource Industries and Academia.
- Meeting with Science Fair School Coordinators from Interior Alaska.

“A successful Science Fair Project is one that creates excitement and enthusiasm for Life-Long Learning in STEM” P.M. & T.K.B.
